Frankford/Al-Assist Behavioral Health Center was the first step in an effort to integrate our primary and behavioral healthcare services. We recognize that many of our patients have physical and mental ailments that are rooted in the same social problems. Frankford/Al-Assist works with Frankford Avenue Health Center to see that our patients are truly healthy both in mind and body.

Mental health services are available for patients over the age of 3, and substance abuse treatment is available for adults over 18.

*Greater Philadelphia Health Action offers comprehensive primary and behavioral healthcare, health services and childcare to you and your family. Since our founding in 1970, we have grown to be one of the largest and most effective providers of community healthcare in the area, serving close to 60,000 patients.*
