What Is Ativan and How Does It Work?

Ativan (Lorazepam) is a well-known medication used to treat **anxiety disorders, insomnia, panic attacks, and stress-related symptoms**. It belongs to the **benzodiazepine** class of drugs, which act on the brain and central nervous system to produce a calming effect.

Ativan works by **enhancing the effects of GABA (gamma-aminobutyric acid)**, a natural neurotransmitter that reduces nervous system activity. This helps decrease anxiety, relax muscles, and promote better sleep.

When you **Buy Ativan Online No Rx 24-Hour Door Delivery** from **Rapidrx.us**, you get genuine medication that works quickly to help you regain peace of mind and emotional stability.
