What is Fioricet?

Fioricet is a combination medication containing:

- **Butalbital** – a barbiturate that relaxes muscles and reduces tension.
- **Acetaminophen** – a pain reliever that alleviates mild to moderate headaches.
- **Caffeine** – improves blood flow and enhances the effectiveness of other ingredients.

This combination provides fast and effective relief for **tension headaches, migraines**, and related conditions. **Fioricet 40mg** is the most popular dosage for consistent, long-lasting results.
