Although Soma is highly effective, it should be used responsibly. Typically, doctors recommend Soma for **short-term use (2–3 weeks)** to prevent dependence. Avoid alcohol or other sedatives while taking this medication, as they can increase drowsiness or side effects.

Take Soma exactly as directed, usually once every 6–8 hours. Do not exceed the prescribed dosage, and consult a healthcare professional if your pain persists beyond the usual treatment period.

Store the medication in a cool, dry place and out of reach of children.
