Safe Usage Guidelines and Important Precautions

While Xanax offers powerful relief, it should be used responsibly. Always follow the recommended dosage and avoid taking more than prescribed. Overuse or sudden discontinuation can lead to withdrawal symptoms or dependency.

Do not combine Xanax with alcohol, opioids, or other sedatives. If you have medical conditions like liver disease, breathing disorders, or a history of substance dependence, consult a healthcare professional before use.

Store Xanax securely in a cool, dry place away from children and pets.
