What Is Belbien and How Does It Work?

Belbien is a well-known sleep aid medication containing **Zolpidem Tartrate** as its active ingredient. It belongs to a class of drugs known as **sedative-hypnotics**, which work by calming brain activity to induce sleep. Belbien is commonly prescribed for **insomnia**, helping users fall asleep quickly and stay asleep longer without frequent awakenings.

It acts within **15 to 30 minutes** of consumption, making it perfect for individuals suffering from acute or chronic sleep disturbances. Belbien helps reset your natural sleep rhythm, promoting deeper and more restorative rest so you can wake up feeling refreshed and energized.
