What is Fioricet 40mg?

Fioricet 40mg is a prescription-strength combination medication used to relieve tension headaches, migraines, and related pain. It contains:

- **Butalbital**: A mild barbiturate that relaxes muscle tension and eases pain.
- **Acetaminophen**: A pain reliever that helps reduce headache discomfort.
- **Caffeine**: A stimulant that enhances the effect of the other ingredients and improves blood flow for faster relief.

Together, these ingredients make **Fioricet 40mg** highly effective for managing both chronic and occasional headaches. Many people prefer to **buy Fioricet online** for the convenience and speed of access.
